Art Unit: 1773

## Reasons for Allowance

- 1. Regarding claims 4 and 13 17, while the prior art of record disclose recording disks possessing a land and groove structure wherein a non-magnetic material is deposited above the magnetic layer, the prior art of record fails to teach or render obvious a magnetic disk meeting applicants' claimed structural limitations in combination with a non-magnetic material including at least Te.
- 2. Regarding claims 1-3, the present claims are deemed allowable over the references of record since the references of record fail to disclose or render obvious a magnetic disk comprising a substrate with lands and grooves, wherein a level difference between an upper surface of a *continuous* magnetic film on the land and the upper surface of a non-magnetic film filling the groove is 5 nm or less.

While the prior art disclose substrates with lands and grooves covered with magnetic and non-magnetic layers, the prior art of record fails to teach or render obvious the combination of a continuous magnetic layer and the level difference between the upper surface of the magnetic layer on the land and the upper surface of the non-magnetic layer filling the groove.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (571) 272-1505. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Paul Thibodeau can be reached on (571) 272-1516. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
